

Specifications:
 Colorbond® POM, primed only material, is designed to be painted after fabrication. This product provides a readily paintable surface with formability, good adhesion to post-painted topcoats, at relatively low cost.
 Australian Standard:
 Substrate - AS 1397
 Paint Coating - AS/NZS 2728:1997 Type 3

Australine® Architectural wall panel

Note:
 the Australine panel system shown above is now available. Production will depend on quantities / order size.
